**Love play. Learn.**

# Make the World a Better Place

*Throughout my thirty years in the toy industry, I have come across many different people, and I have had the chance to listen to their diversified dreams.*

*One remarkable person is Her Majesty the Queen Mother Sangay Choden Wangchuck of Bhutan, who has committed herself to promoting Bhutan's art, culture and philanthropy.*

*On 7th August 2016, I dressed myself in a gho (the Bhutanese national dress) and, filled with adoration for the country that first put forward the theory of GNH (Gross National Happiness), had a friendly talk with Her Majesty the Queen Mother Sangay Choden Wangchuck about the NGO she established. We soon came to an agreement that we will design and produce a doll representing the image of the NGO. Her Majesty the Queen Mother Sangay Choden Wangchuck said, "always leave a place better than you have found it, this applies to everything you touch in life." What a coincidence, I thought, as this is also the vision of Hape — to make the world a better place. This idea is central to our philosophy.*

*Sincerely,*

A handwritten signature in black ink that reads "Peter Handstein". The signature is fluid and cursive, with a large, prominent initial "P".

*Peter Handstein  
Founder & CEO*

## Love play. Learn.

*"Love play. Learn." is the philosophy of Hape. 'Love play' is the true nature of every child, it is universal, and through play children are able to learn valuable lessons.*

*German pedagogue Friedrich Fröbel (1782-1852) advanced the theory two centuries ago: "Play is the highest expression of human development in childhood, for it alone is the free expression of what is in a child's soul." Children learn through play, which is the primary vision of Hape, as well as the philosophy of cross-cultural education.*

*The Hape brand plays the role of a conduit through which a seamless transfer of universal values takes place, with the aid of an intercultural pedagogical philosophy.*

## We Care, We Share

*Since we all care to make the world a better place, every one of us ought to contribute to it.*

*In 2017, Hape will place further emphasis on sharing.*

*Sharing between human beings is the most wonderful gift in the world, and the bond between people makes you extremely strong, strong enough to get through any of life's difficult moments.*

*Last year, Hape travelled to many places; 54 kindergartens, orphanages and children's hospitals in Afghanistan, Nepal, Syria and Zimbabwe, plus 52 autism rehabilitation centres and schools in China. It is better to say that we were deeply touched by them rather than simply saying that we helped them.*

*“children don't  
play to learn,  
children learn  
because they  
play.”*

*Peter Handstein*

## You Are What You Play

*Mahatma Gandhi has a famous saying: "If we are to reach real peace in the world, we shall have to begin with the children." Going back to our philosophy, play is in the nature of every human*

*being, it spans space and time. Only a healthy-minded child can grow into a sane adult, and in order to make this happen, those in the toy business and educational figures all over the world should work tirelessly.*

*We often say, you are what you play, and one of the most important aspects of these endeavours is the commitment to not simply pursue eye-catching products, or to chase profit, but to never add any element of weapons or violence into Hape branded toys.*

*After three decades' of development, today Hape is not only a toy brand but also a transmitter and successor of educational concepts, the representative of an environmental friendly lifestyle and a platform for the mutual development of all generations.*
